# Welcome Cattleman,

I would like to invite you to our annual Performance in the Pasture Fall Edition Production Sale. We are really satisfied with this set of cattle and excited to offer you this group of cattle from some of the top genetics in the herd.

As cattle prices continue to set new records what a great time to invest in great genetics that will produce return. It appears we are looking at several years of these high cattle prices. Now is the time to invest for a profitable return! We are cattlemen ourselves. As a result, we understand the needs and challenges of YOU, our customer, and the importance of your profitability.

**The bulls.** We are offering 30 aged bulls for your evaluation. In our opinion, this is hard to find. These bulls have been developed slowly and carefully with longevity in mind. All bulls have been genomic tested giving you the highest accuracy EPDs and confidence in your investments. We feel we have these bulls sorted down using strict common-sense criteria leaving a great set of fault free bulls. Several of these bulls are sure breed standouts on multi traits from calving ease to growth to carcass without giving up maternal traits. These bulls are semen checked and ready to go to work; and as always we stand behind our bulls 100%. Any problems that may arise I promise can be worked out. We care about getting your cows bred and making sure you are satisfied with your investment. You have invested in us and our program and we stand behind these cattle.

**The registered pairs.** We are very excited to offer young females you can build you heard around. This group are all fall calving replacement heifers mostly with AI babies on their side selected right from the top of our fall replacement heifers. These heifer pairs have been doing a great job and are sure to make you replacement females that will produce return. This is a group for the registered and commercial cattleman with many donor prospects in this group.

**The commercial bred heifers.** 60 Spring calving commercial bred heifers offered by Meyer Cattle, Hopewell Farms, Ernst Girod-- E and A Belgium and Cattle Farms, and Niemeyer Family Farms are all bred to easy calving Angus bulls with high accuracy genomic tested EPDs that rank high in the breed database. These cattle are all bred and developed correctly giving you the confidence they will calve easy, milk and breed back timely. Most of these heifers will be bred to Meyer cattle bulls and many sired by Meyer cattle bulls. Generations of predictability are built in these cattle. Selling in small groups so you can put together the groups of heifers you need. Additionally, we have bought and calved heifers from each of these respective breeders with no issues.

As always we are grateful for the team at Meyer Cattle. Gavin Deters, Levi Wommack, Anderson Hunt, and all the rest of the crew really make things happen. Mike and Tanner Ellison help get the cattle clipped and ready and do a great job.

The cattle business looks bright. Join us Friday November 3 for an opportunity to invest in some of these great genetics we are offering. We are grateful for our past customers and the relationship we have developed with them and look forward to new customers as well.

*The Brock Meyer Family*

# CARING FOR YOUR BULLS

*By Sally Northcutt*

When you get your performance-tested bull(s) home, observing these management practices will result in the best reproductive performance.

## FEEDING

Remember, the bull is a yearling or long yearling and still has some growing to do. Feed the young bull well. Hay and grain plus a protein supplement will be adequate. You should feed five to ten pounds of grain and one to two pounds of protein supplement in addition to full feed of good quality hay from now until the start of the season. Continue to feed liberally so the bull will grow out well.

## BREEDING SEASON

Plan to use the new bull in a restricted 45-60 day breeding season the first time. Observe him closely to be sure he is servicing and settling females.

## NUMBER OF COWS

The yearling bull should be used on a minimal number of cows or heifers. The number should be governed by his age at the start of the breeding season. The following is a guide:

## MANAGEMENT + HOUSING

The bull should be kept in a well-fenced lot prior to and following the breeding season. A shed or other natural windbreak should be provided. Supply plenty of clean water and minerals free-choice. Treat routinely for lice and grub worms. Run bulls together with caution. Bulls of similar age which have bred cows together will usually work. Check for any unsoundness which might develop. Test annually for Brucellosis and Leptospirosis. Vaccinate for IBR, PI3, BVD and Lepto.

BULL'S AGE	# OF FEMALES
12 to 15 Months	10 to 12
15 to 18 Months	12 to 18
18 to 24 Months	18 to 25
24 Months & Over	25 to 35

# PERFORMANCE *in the* PASTURE

FRIDAY, NOVEMBER 3, 2023 | 6:30 PM CST | MEYER CATTLE COMPANY HEADQUARTERS | BOWLING GREEN, MISSOURI

## LOCATION

14353 HWY 61 EAST OUTER ROAD  
BOWLING GREEN, MISSOURI 63334

*The facility is located North of Bowling Green on HWY 61.  
Take the east outer road North for 3/4 of a mile.  
The facility will be on the right.*

## SALE DAY PHONES

Adam Conover *American Angus Association*.....816-676-8560  
Julie Conover *Missouri Angus*.....734-260-8635

## TERMS + CONDITIONS

Terms are check or cash, unless prior arrangements have been made before the sale. Cattle sell under the Terms and Conditions of the American Angus Association.

## SUPPLEMENT SHEET

An updated sheet will be available on sale day and will supercede any information printed in this catalog.

## BREEDING GUARANTEE

We believe all bulls to be fertile and have passed a breeding soundness exam 30 days prior to the sale. All bulls sell with a first breeding season guarantee. Breeding season is defined as 90 days after the first day the bull is exposed to cows. Bulls selling for \$3500 or more are guaranteed against breeding injury for the first season, defined at a 90 day period following the first turnout of the bull. The bull may be replaced with another bull if one is available. Or a credit may be given for the next sale less the salvage value of the injured bull. Please notify us as soon as the injury occurs and prior to the bull being sold. Replacement bulls are not covered by this guarantee. This policy does not cover neglect.

## EXPECTED PROGENY DIFFERENCES

EPDs listed in the catalog are current at the printing of this catalog. Bulls with the HD50K logo have been tested and have Genomic Enhanced EPDs for increased accuracy. For updates, visit

[www.angus.org](http://www.angus.org) 

## LIABILITY

All persons attending the sale do so at their own risk. Meyer Cattle Company assumes no liability for accidents, theft or damages occurring at the sale facility. Additionally, all cattle are considered sold after the sale.

## DELIVERY

Bulls and females are ready to be loaded upon purchase.

## INSURANCE

Thorncreek Insurance Services, Inc.

*Troy Alexander* .....217-899-3426

We encourage the purchase of livestock mortality insurance to protect your investment. Any bulls left under the care of Meyer Cattle Company should be insured under the new buyer. Meyer Cattle is not responsible for injury occurring after the sale of the cattle.

## SIGHT UNSEEN POLICY

We will guarantee the complete satisfaction of all sale lots purchased sign unseen. All bids will be handled with the highest appropriateness and confidentiality.

## VIDEO AUCTION SALE PROCEDURE

All animals selling will be penned at the sale facility. The auction will be conducted inside the barn at Meyer Cattle Company. A video of each sale animal will be played on large screen displays as the respective animal sells. Cattle will not come into the sale ring. Please arrive early to view the sale offering. The auction will be available for viewing and bidding online through [www.DVAuction.com](http://www.DVAuction.com).

**DVAuction**  
*Broadcasting Real-Time Auctions*

## HEALTH

Cattle will have health papers for out of state purchases. All bulls will have a current breeding soundness exam and are semen tested.

## GUEST CONSIGNORS

E&A Belgiums & Cattle Farms Niemeyer Family Farms Hopewell Farms  
*Curryville, Missouri Bowling Green, Missouri Paris, Missouri*

## COMPLIMENTARY MEAL

A beef dinner provided by Meyer Cattle will be available on sale day beginning at 5:00 PM CST.

*Impressive on so many levels. Lot 1's mother was purchased as a high seller from Valley Oaks Angus and what a producer she has been for us! This GB Fireball son is proof of her value! He reads like a great book, double digit CED, negative birth to charting in the top 10% of the breed for weaning and yearling. But it doesn't end there. Check out his dollar values.... top 1% of the breed for \$G, \$B, \$C along with a 1.82 marbling and .99 ribeye. That's right, he has marbling AND muscle in a great phenotypic package! Not only does he have growth and performance, but he also has a Milk EPD of 37! He is a bull that is hard to find with his math and look!*

Basin Deposit calves have been a favorite sire group here at Meyer Cattle when it comes to true power and growth. This is a good beef bull that sure did his job from the moment he hit the ground. He weighed right up at weaning with 880 pounds and a 1360 yearling weight. No matter when you sell your calves, this bull will sure make your checkbook happy.

*Growth Fund has been a breed changer for the Angus breed. They are sought after for their ability to put so many traits together and yet maintain a great phenotype. The true value of Growth Fund, is his sons breed on like their father does. Check out his yearling growth in this bull; 165 YW EPD-- he is in the top 1% of the breed for weanigm and yearling.*

We really like this cow. Jordan Hunter purchased this cows granddam and she made her impact on our herd in a big way. She is the combination female that is unique as she is calving ease, high growth, and milks. Phenotypically she is a joy to look at in the pasture. The kind you build a herd around. Do your homework here. Lot 31 calved on 9/14 to Tehma Testament with a bull calf. **Calf Registration AAA # 20743587**

The Camilla cow family has had as many high sellers in our sales as any. Stout, good looking, easy fleshing, and a balanced number profile. This is a sale feature. Again, only because we opted to offer you some young females, we offer 1180. Lot 32 is due to calve on 10/2/2023 to EXAR West Point 0618B.

# Commercial Females

## COMMERCIAL BRED HEIFERS

OFFERED BY MEYER CATTLE

Meyer Cattle commercial bred heifers from the heart of the replacement females. These females are developed on fescue just like our registered females; had all vaccinations, pelvic measured and tract scored, along with anaplasmosis vaccination. We developed these heifers as if they were going back to our herd. We feel they are elite and hope you will agree. Most are AI bred to Tehma Testament and those not are bred to our calving ease herd sire. These are not able to be registered.

E & A<sup>s</sup> BELGIAN & CATTLE FARMS

## COMMERCIAL BRED HEIFERS

OFFERED BY E&A BELIGUM & CATTLE FARMS • CURRYVILLE MISSOURI

Locally sourced heifers that are raised through the Show-Me Select Replacement Female Program. These females meet and exceed those requirements. Heifers are had fed and walked through daily ensuring docility and are bred to Meyer Cattle or Mead Farms bulls. These heifers are vaccinated and developed for longevity. We have personally calved E ♂ A bred heifers and they calve easy, the calves grow, and wean a heavy calf.

## COMMERCIAL BRED HEIFERS

OFFERED BY NIEMEYER FAMILY FARMS • BOWLING GREEN, MISSOURI

Home raised and developed by the Niemeyer family. The Niemeys have been long time customers of Meyer Cattle. As a result, all these females are sired by Meyer Cattle bulls and AI bred to Basin Advance 3134 and then pasture exposed to Hopewell Advance. A very uniform group that has been put through the standards and requirements of the Show-Me Select Replacement Program.
